10. In concert with NSA, OC is attempting to identify commercial products that may be applicable to the communications security requirements for the Directorate of Operations [redacted]

25X1

[redacted] under the OC [redacted] Project. Along with major vendors such as Datotek and Motorola, names of approximately one dozen smaller companies and their products are being investigated. Contacts will be made with these companies to match our [redacted] communications and communications security needs with commercially available products.
